

Project: Apropos Glazed Structure
Date: Completed 2018

RHODES & PARTNERS PROVIDES 'INVISIBLE' SOLUTION FOR LISTED BUILDING

Rhodes and Partners, in conjunction with a specialist structural glazing contractor, have developed a discreet glass entrance box for a historic listed cottage in Milton Keynes.

The design met both the stringent planning constraints to make the structure as transparent as possible, and the client's need for additional space.

The brief was to prevent the new structure from obscuring the view of the listed building. Glazed panel walls and ceilings were therefore specified by Rhodes and Partners to optimise the structural members and achieve an unobtrusive structural framework.
